FAQ's!

Q: How can you coordinate my wedding AND capture content at the same time?
A: Coordination is *always* my top priority—ensuring your vendors are aligned, your timeline is running smoothly, and your setup is pristine. The content I capture is completely candid and organic as your day unfolds. Because I'm already on-site managing every moment, I'm in the perfect position to quietly record those behind-the-scenes details, laughs, and emotions without taking away from my primary focus as your coordinator. *(Note: For larger, highly complex weddings or 10+ hour packages, a dedicated content assistant joins me to ensure zero compromise on logistics).*

Q: Can we add Content Creation onto our Coordination package closer to the wedding date?
A: YES!!! When you book me for coordination I completely block my day off for you, regardless of how many hours you book, if you decide later on you would like content for the day, we can add it to your invoice, with no last minute fee!

Q: Can we choose the songs or vibes for our edited Reels?
A: Absolutely! Prior to your wedding day, we'll discuss your preferred aesthetic, music choices, and any specific trends or moments you'd love captured
You can be as hands-on or hands-off with the creative direction as you like!

Q: What happens if it rains on our wedding day?
A: First off, take a deep breath! Rain brings such an intimate, cozy atmosphere and incredible soft light. Here is how we handle it together:
As your Coordinator: If the forecast turns wet, I step in immediately to execute your Plan B. I'll liaise directly with your venue, florist, and stylist to shift your setup under cover, manage umbrella logistics for your guests, and keep everything running smoothly. You won't have to stress about a single vendor phone call.
As your Content Creator: Rain makes for some of the sweetest, most authentic behind-the-scenes moments. I come prepared with clear umbrellas and focus on catching those spontaneous, genuine interactions—laughing under shelter, cozy moments with your bridal party, and the atmospheric glow of your indoor setup—without getting in the way.
